**Safety Simplified.**

Making health and safety work

[www.safetysimplified.com](http://www.safetysimplified.com)

Created by NEBOSH

## Safety Simplified is an innovative and exciting new course created by NEBOSH, one of the world's leading and most recognised providers of health, safety and environmental qualifications.

Aimed at anyone wishing to gain an introduction and understanding of how they can help ensure a safer working environment. Suitable for organisations of any size in any industry or sector. This three-day course uses real-life case studies and harnesses the latest technology in the form of augmented reality to offer learners a truly interactive and engaging learning experience.

Developed by leading expert practitioners and delivered by NEBOSH accredited Learning Partners, the Safety Simplified programme is an excellent solution for building knowledge of health and safety in any organisation.

On completing the course, learners will have both the understanding and the practical skills to make the health and safety case to colleagues, improve engagement and help reduce the personal, organisational and financial cost of accidents, incidents and work-related ill health.

### The details

Safety Simplified provides an ideal introduction to health and safety, and there are no entry requirements.

Through a robust learning experience, delivered over three days by NEBOSH accredited Learning Partners. Learners will gain lots of practical hints and tips and will return to their workplaces with ideas and tools they can put into practice immediately.

The course content is absorbing, engaging and energetic, making use of the latest technology, such as augmented reality, to provide a learning experience that brings health and safety to life and helps learners retain critical knowledge.

In the practical assessment learners can use their own organisation's risk assessment format.

The emphasis is on giving learners the key information and helping them develop the practical skills they need to take ownership of health and safety, with an eye on the bigger picture: improving standards to help keep their colleagues and communities safe from harm.

### What learners will learn

Upon completion of Safety Simplified, learners will:

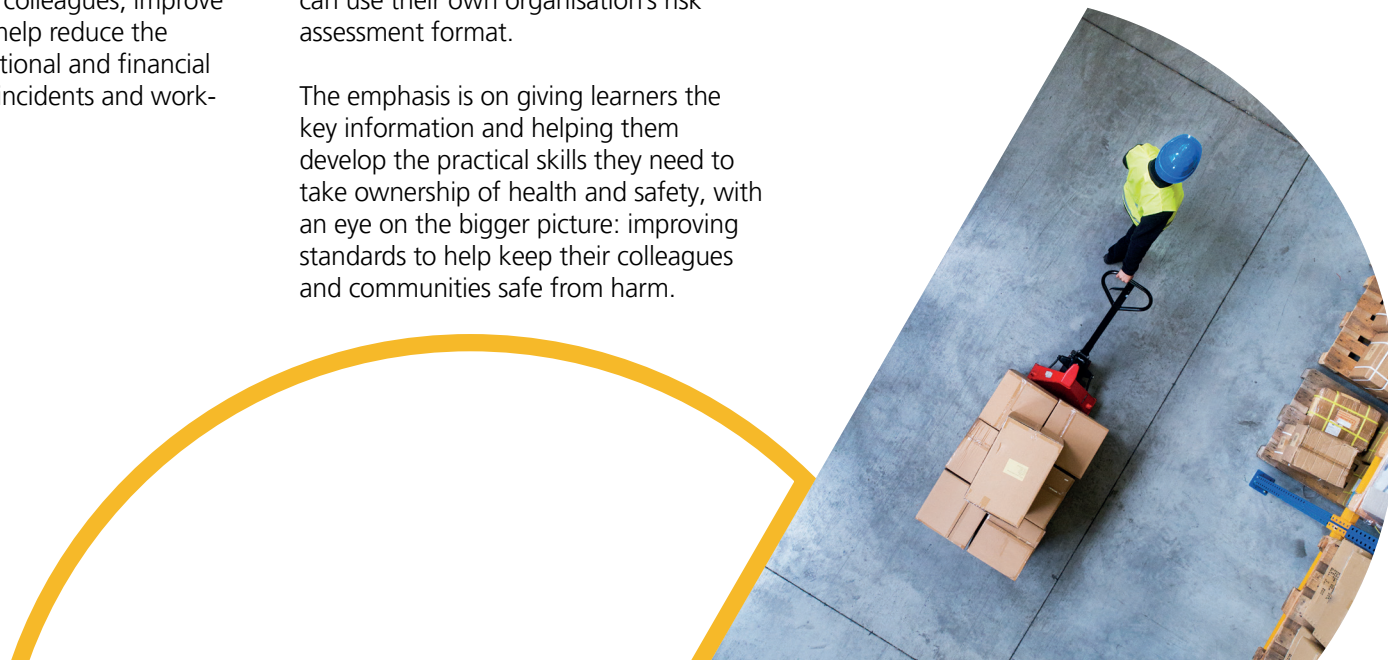

- understand the reasons for, and benefits of, managing health and safety
- recognise common workplace hazards
- understand how to help prevent incidents recurring
- appreciate the purpose of inspections and audits
- know how to undertake basic health and safety risk assessments and put in place appropriate control measures
- be able to help employers comply with the law and good practice and avoid the huge impact of incidents and ill-health.

Safety Simplified is an ideal introduction to health and safety.

### How will Safety Simplified benefit my organisation?

Safety Simplified can help businesses to:

- reduce incident and injury rates, and the associated lost time and absence
- foster greater health and safety awareness among employees
- improve employee engagement and secure higher levels of compliance with organisational safety measures
- make working relationships between health and safety leaders and employees more effective and collaborative
- encourage greater employee participation in health and safety functions, as part of an enhanced safety culture
- achieve greater protection from the reputational damage caused by health and safety failures
- improve morale and lower staff turnover.

Safety Simplified.  
For you. For business.  
For a safer workplace.
